SUMMARY

Backend Developer & Web Developer with 4 years of school experience in C# development and .NET projects. Built my capstone project with full-stack ASP .NET MVC helping non-digitized masseur organization optimized business performance across branches. Skilled in backend architecture with knowledge of SOLID, REST, OAuth, Caching, Versioning, Concurrency, CI/CD pipelines, and JWT. 100+ Easy to Medium Leetcode solved. Open to Backend and Web Developer roles.

PROJECTS

TaskFlow API · C# · ASP .NET Web Api · PostgreSQL · Redis · Docker 2026

- Developed a task management REST API using ASP.NET Core Web API (.NET 9) following SOLID principles and clean backend architecture.
- Implemented secure authentication and authorization using JWT, API Keys, and OAuth 2.0.
- Added industry-standard backend features including URL segment API versioning, rate limiting, health checks, Redis caching, Serilog request logging, global exception handling, background job processing with Hangfire, and Docker containerization.
- Configured CI/CD pipelines using GitHub Actions for automated build and deployment workflows.

School Attendance Portal · React · ASP .NET Web Api · Tailwind CSS · PostgreSQL 2026

- Built a school attendance management system with a web portal for teachers and mobile-based access for students.
- Managed the deployment of the application, hosting frontend on Vercel, backend on Render, and the database on Railway.

Web-based Massage Monitoring System · ASP .NET MVC · Html · Bootstrap · CSS · Javascript · MSSQL 2025

- Developed a full-stack web application for a capstone project using ASP.NET MVC to help modernize and streamline operations for a massage service organization transitioning from manual processes.
- Implemented features including admin and branch portals, appointment management, staff scheduling, and branch earnings monitoring and real-time massage monitoring.

TECHNICAL SKILLS

ATS Keywords: C#, .NET, ASP .NET Web API, ASP .NET MVC, HTML, CSS, Tailwind CSS, Bootstrap, Javascript, React, MSSQL, PostgreSQL, Git, Github, Redis, Docker, SQL, Prompt Engineering.

AI: AI-Assisted Development Tools, Prompt Engineering (ChatGPT, Claude)

Languages: C# (primary), SQL, JavaScript

Backend & Infra: .NET (ASP .NET Core), REST APIs, Docker, CI/CD (GitHub Actions), JWT Authentication, OAuth 2.0

Frontend & UI: React, HTML, CSS, Tailwind CSS, Figma, Canva

Databases: PostgreSQL, MS SQL Server

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Software Design Principles

Tools: Git, Postman, Github, Microsoft Office Suite, Google Workspace

EDUCATION

Asian College of Technology 2022 – 2026

Bachelor of Science in Information Technology

St. Cecilia's College -Cebu, Inc 2020 – 2022

Information and Communication Technology
